And he says you could put on some makeup
And you could pile up your hair
And at least try to do something
With what you ve got there

See I m not that kind of
Affair is fair
And right is
Right around the corner
Just a block or
So you know come morning
You ll have to leave
Everything to me

What do you do
Say what do you do
And that s the glory of
And that s the story of
What do you do
