Stand atop the wishing well in the dark of the night.  
Passing the time. Not a star in sight.  
Not even one. Not one to make an empty wish on.  
Cross my heart and hope to die. If I break apart with this lie.  
The time keeps on passing but you remain the same.

**C** **F**  
And your love still remains.

**Csus2** **Fsus2(300230)** **Dm** **F**  
I make a wish on a prayer as a tear falls down the well.  
I never hear the fall. It s as if the wish was too tall.  
I make a wish on a prayer. Hoping you re still there.  
Don t give up on me now. Don t give up on my yet.

**C** **F**  
Hindsight is always such a sight.  
Inpredicting the weather and how things ought to be.  
Send your rain and relieve me from this tongue twisted pain.

Chorus

**C** **A** **F**  
I believed when they moved their lips. I didn t take my eyes off theirs.  
All the right words and all the right convincing.  
I closed my eyes and jumped in, spinning.

Prologue to the foreclosure of a heart.  
I see you at the top of the well with open arms and a smile.  
At the top of the well.  
You re wishing me well.
