

I know that highways aren't lonesome  
People are  
Sad little gypsies  
But I'm one of them now  
Ah the crazy thing is when I get back home  
I'm probably gonna wanna turn around

CHORUS

Right now I need something for the shakes  
I need to fix the brakes  
I need a road to take me home straight and true  
I need to lay my burdens down  
In an understanding town  
But most of all  
I need someone to talk toooooooooooooo  
TO TALK TOooooooooooooo

VERSE

All the signs have lost their meaning  
There's nothing on the radio  
It's just an old Volkswagen  
And it feels like I got 18 wheels in tow  
There's always somebody in my way  
Somebody trying to pass me by  
Somebody's trying to race  
Somebody trying to make me cry

CHORUS

Right now I need something for the shakes

**F**

I need to fix the brakes

**C**

**G**
