Well when I was a young-un they used to teach me to play music like this here...

(verse 1)

```
G                C7
When I look in your face baby
      G                C7
When I look in your eyes
      G                C7                G                (riff 1) C
I can tell pretty mama I been wastin time
      C
Cause you don t really love me
                        G C7 G C7
You just want me for what I am
      D                        D C# C
But you best treat me right, woman
                        G
Gonna lose your money man
```

(verse 2)

```
G                C7                G                C7
Well when I first met you baby, you was a red light girl
      G                C7                G                (riff 1) C
But I tried to take you to a better world
      C
But you would not listen
                        G C7 G C7
Still you think I am a fool
                        D                        D C# C
Well you had it made in the shade, baby
C                        G
Don t let that tree fall down on you
```

(verse 3)

```
G                C7                G                C7
Well I work for the railroad each and every day
      G                C7                G                (riff 1) C
Well I work real hard tryin to make my pay
      C                        G C7 G C7
```

Lord I never tell you what you supposed to do
