Intro: **F# B C#**

```
F#           B                    C#
I used to live in a poor neighborhood
F#        B                      C#
My friends and me we always had a time
F#             B                      C#
Never had no money but we had it so good
```

```
(A#)            B              C#
Those days are gone and I wanna go back
      B           F#
So pure so simple
```

```
F#          B            C#
Never thought about it when you re young you don t care
F#            B       C#
You don t realize it  till it s all behind
F#          B          C#
Take it for granted just not well
