   D
Like my brother before me
                    D
         C
All I can do is write this song
       D
           Am C D G
And for her I sing
Chances come and when they re gone
                  С
              G
The carve in stone what we ve done wrong
So let s take care of what we have
Before the good we know goes bad
               Am
And the beauty fades and just slips away
The dirty air, the dying seas
Will this be the wold we leave
To the wild and young
I say, just look at what we ve done
           С
And right before your eyes
Will be tomorrows goodbye
(F G)
    С
Do you ever think about
   G
The future or the past
Do you ever wonder
  С
How long this world will last
(GDAmCD)
              G
So let s take care of what we have
Before the good we know goes bad
              Am
And the beauty fades and just slips away
The dirty air, the dying seas
```
