A|-----------------------------2/3----|
E|-----------------------------------|
```

```
Intro: C-G2-C-G2 x2, (second time with Intro Riff)

Verse 1:
                C
Where you gonna run to now
        G2                        C  G2
That you ain’t got space to fill
                C
What you gonna do with your time now
      G2                    C  G2
You ain’t got time to kill
            C                    G2
Where you locked in coverage falling in time
          C                 G2                    C  G2
And it’s hot enough just to let your song go by

Pre-Chorus 1:
                      C     G2   (intro riff)
I’m gonna give it to you
                        C    G2          G
If you let me give it to you,    hey hey

Chorus: (play Fill 1 once thru chorus)
          C                                        G
So let me turn the volume up get a little bit of Hi-Fiiii
 C                                        G     C G2 G
Drown out all the sirens in the back of my mind

Interlude:(play twice, second time with Intro Riff)
C           G              C   G2
  Bah bah bah bah, bah dah bah bah

Verse 2: (use Verse 1 chords)
Now you gonna settle your ties
With you aint got bind to tie up
Why burn your bridges?
When you can blow your bridges up
Where you locked in coverage falling in time
And it’s hot enough just to let your ideas go by

Pre-Chorus 2:
                      C     G2   (intro riff)
I’m gonna give it to you
                        C    G2         G             G7
If you let me give it to you,    hey hey,    hey hey,

Chorus: (use chorus chords and play Fill 2&3 at same time until fade out)
So let me turn the volume up get a little bit of Hi-Fi
Drown out all the sirens in the back of my mind
Let me turn the volume up get a little bit of Hi-Fi
Drown out all the sirens in the back of my mind
Now they’re calling all cars from the north to the Southside
```

Better get the east and its coming from the Westside
They're calling all cars from the north to the Southside
Better get the east and its coming from the Westside

Outro: Fill 3 w/chords
