

Not To Me
M2M

Not To Me by M2M (2002). Released as a B-side/Bonus track on the Everything CD single.

Tabbed by Medalion (medalionemissary@hotmail.com).

Some of the m2m fans at <http://www.marion-raven.com> asked for a tab for this song, so

I was the first to tab it I think so here ya go...

The piano intro part can be played on guitar all on the little e-string, very very simple.

e--5-5---3--3--5-5---3 (and so on, listen for timing)

Verse chords (sorry no lyrics here, can't understand from my copy of the song but you can HEAR the chord changes easily in the voicings)

G (C Am7) D

A special note about the bracketed chords of C and Am7. At times you can switch these chords around so it's like G, Am7, C, D... don't ask me why but it works both ways.

Chorus chords

G Cadd9 D

then back to G...

That's pretty much it. It's not really a guitar song.
