

Darkness Within
Machine Head

[Verse 1]

Am **E**
Here in this darkness that I lay
Em
Depression heavy in its way
F6
And how my body aches to leave
E **Am**
And sing its final eulogy
E
My sons I love you evermore
Em
And though the road beckons once more
F6
I see the damage that I ve done
E
And search for redemption
Am
But I am just a broken man
E
Whose soul cries out to understand
Em
How the madness shatters me
F6 **E**
Upon the stage on bended knee
Am
I scream aloud at skies above
E
That answer mute, bereft in love
Em
I struggle not to fall from grace
F6 **E** **F**
I sing the hymns of my disgrace

[Chorus]

Asus4 **Am**
We build cathedrals to our pain
C **F**
Establish monuments to attain
Asus4 **E**
Freedom from all of the scars and the sins
Am
Lest we drown in the darkness within

[Verse 2]

Am **E**
 Mystery s forgotten chords
Em
 I strum in vain to please the lord
F6
 But he has never answered me
E **Am**
 And faith has waned eternally
E
 In empty men who pass along
Em
 The woes of all religions wrong
F6
 And now the shadowed veil it falls
E
 Heed the clarion call
Am
 So pray to music build a shrine
E
 Worship in these desperate times
Em
 Fill your heart with every note
F6 **E**
 Cherish it and cast afloat
Am
 Because God is in these clef and tone
E
 Salvation is found alone
Em
 Haunted by its melody
F6 **E** **F**
 Music, it will set you free (let it set you free)

[Chorus]

Asus4 **Am**
 We build cathedrals to our pain
C **F**
 Establish monuments to attain
Asus4 **E**
 Freedom from all of the scars and the sins
Am
 Lest we drown in the darkness within
