

Without You
Mad Caddies

So, this is my first tab, but I think it s pretty close. I m not sure about the D♯s and the placements of them are probably a bit off. Honestly, you can play it without them and it would probably sound just fine. Same goes for the A♯m a little bit.

Any suggestions send to Pmaraveyias@yahoo.com

(F#)

Pain and come and set me free

(Ending)

Without you

Ending 1: **F#**

OR

Ending 2: (Slide audibly between the chords) **A#m G# F# F F#**

The second ending is basically the horn part but it sounds kinda cool.

Thanks! Hope you enjoyed it!!
