END

LYRICS

Verse

Every night I seem to wake up with myself on fire  
All the things that you said today made me so restless  
And every morning I wake up feeling shittier than the day before  
Feels like I m going crazy with the world sometimes

Chorus

Don t know much, but I know my name for sure  
Can t help but to think that I m more blind today than before  
Feeding Time...and the world moves by my door  
Too fast to let me in

Verse

Too much drinkin and my soul s grown tired  
Too much thinkin now my mind s too fuckin wired  
Tried to think of a way to make all the things you said

to get outta my head  
Feels like I m going crazy with the world sometimes

Chorus

Bridge

Leaves are falling  
Trees are bending  
Rain is coming down

Windows closing  
Street lamps lighting  
When will it slow down

Verse

Chorus

End
