

**Has To Be**  
**Madonna**

**Am**            **G**            **D**

Breathe in.. breathe out

**Am**            **G**            **D**

I say a little prayer

**Am**            **G**            **D**

How the Gods above

**Am**            **G**            **D**

Could be so unfair

**Am**            **G**            **D**

I know there s someone out there

**Am**            **G**            **D**

Waiting for me

**Am**            **G**            **D**

There must be someone out there

**Am**            **G**            **D**

There just has to be

**Am**            **G**            **D**

Go on.. go on

**Am**            **G**            **D**

Don t sit there like a fool

**Am**            **G**            **D**

You ve graduated from

**Am**            **G**            **D**

A different kind of school

**Am**            **G**            **D**

I know there s someone out there

**Am**            **G**            **D**

Waiting for me

**Am**            **G**            **D**

There must be someone out there

**Am**            **G**            **D**

There just has to be

**Am**                            **G**

How could all the Gods above

**D**

be so unfair
