Madonna

Tabbed by Jono

This is the official tab to the song, as converted from the sheetmusic by myself. It also sounds exact when played. These same notes can be played elsewhere on the fretboard, but I tabbed it on the upper register. The intro is just some muted strings. All notes are played in a pattern of eighth-note, quarter note, eighth-note, quarter note, etc..... The riff is the same throughout the song. Enjoy!
