

Be Together
Major Lazer

Am **Em**
Let me escape in your arms
G **Am**
Baby I m yours, baby I m yours
Am **Em**
Love don t come easy at all
G **Am**
I miss you so much, I miss you so much

Am **Em**
Tell me, is this freedom, baby?
G **Am**
Chasing after danger, making my heart race, woah

Am **Em**
Maybe if the stars align, maybe if our worlds collide
G **Am**
Maybe on the dark side we could be together, be together
Am **Em**
Maybe in a million miles, on a highway through the skies
G **Am**
Someday soon we ll be together

Am **Em**
He was a dreamer at heart
G **Am**
Chasing the stars, chasing the stars
Am **Em**
Wings spread to the sun
G **Am**
I miss you so much, I miss you so much

Am **Em**
Tell me, is this freedom, baby?
G **Am**
Chasing after danger, making my heart break, woah

Am **Em**
Maybe if the stars align, maybe if our worlds collide
G **Am**
Maybe on the dark side we could be together, be together
Am **Em**
Maybe in a million miles, on a highway through the skies
G **Am**
Someday soon we ll be together

Am **Em**
We ll be together, we ll be together
G **Am**
We ll be together, we ll be together
Am **Em**
We ll be together, we ll be together
G **Am**
We ll be together, we ll be together

Am **Em**
Maybe if the stars align, maybe if our worlds collide
