G **D**
What s the matter with our vision
G **D**
Does the blindfold cause indecision
G **D**
In a dark age at a dark time
G **D**
Eyes will open for the first time
D **G** **C**
And where will you be found
C
deep in the forest
D **G** **C**
The road will take you down
C
the edge of darkness
D **G** **C**
To find what s really there
C
a world of fire
D **G** **C**
While dragons fill the air

GD
I fly, fly, fly towards the heavens
D
I run, I run, run through my backyard
D
I walk, I talk, I talk to the water
D **C** **D**
I float away - I m here to stay

What s the matter with our leaders
Can t they function as the healers
Where s our champions where s our heroes
Have they left us down to zero

And now its up to you
go find the courage
Hey what you gonna do
don t look around you
The giants at the gate
no longer sleeping
How long will you wait

To fly, fly, fly towards the heavens
To run, to run, run through the backstreet
To walk, to talk, to walk on the water
You float away you re here to stay

What s the matter with society
We ve created this mental poverty
In a dark age at a dark time
Eyes will open for the first time

(repeat first chorus: where will you be found....I m here to stay.)
