That we re connected

```
27
Make Them Suffer
[Intro]
[Verse]
           Am
                                          Am
This is a system reset. Accept agreements. Delete all accessories
Pending permissions request; access all recents. Can t search the directory
We re screaming 00011011
           Am
This is a system reset. Connect the sequence
[Chorus]
                         Dm
                                      Am
We re connected. But I don t feel a fucking thing
              F Dm Am
But we re connected
           N.C.
This is a system reset. Fuck
[Verse]
Am
 Commencing scan of memory...
Accessing cache bin imagery...
We re screaming 00011011
C#m
User distrusted. Content corrupted
     Am
My soul, these memories; distrusted they re built on lies
 Time s slowed by every file, so deceptive
[Chorus]
                            Dm
                                          Am
But we re connected, and I don t feel a fucking thing
                               Dm
                            F
[and I know] that we re connected. Could the god code save me?
We re not alone. (And I know it s true)
               F Dm Am
```

[Bridge] Am A deterministic perfect system. Formatted, tested With humanistic algorithms. Communications detected Uncaching memory, all the corrupted imagery Upload the trojan, leave me broken Am DmA beacon, connect the sequence F Dm Am connect the sequence [Chorus] F DmAm But we re connected, and I don t feel a fucking thing F [and I know] that we re connected. Could the god code save me? F Dm Am We re not alone. (And I know it s true) F Dm Am That we re connected
