

Circle Of Friends
Makoto Miyazaki

INFO:

For those who don't know, this is the ending song for the anime K Project (or just simply K) for episode 6. This is the full version of the ending.

Music: Makoto Mizayaki

Singer: Yuuki Kaji

UPDATE NO.2:

I have realised that there are some youtube covers of this song. I have also realised that the chords were exactly the same as mine. I don't know whether it was only a coincidence or not, but if you are using this, please link this in the description. I am very happy that you are using this tab and I encourage you to sing your hearts out (because this IS very pretty), however I spent quite some time on this (as this is not just a simple 4 chords song) so I would appreciate that you would link this. Thank you for your time.
