

Doo Right
Man Man

G **G7**
I wanna hold you
 Am **D**
til the mountains turn into sand
 G
Oh my god, what happened to all those days
 G7
before we were bruised
 Am
before we were cut loose
 D
to drown in your wake

C
I cant breathe underwater like i used to
 D
before i met you

Repeat until the end.

i, just cant remember
january, straight through december
my collective memories are in shambles
so are my scruples
i m outside your window
throwin bricks at the moon

i cant breathe underwater like i used to
fore i met you
