

**Dude Are You Kidding Me
Man Overboard**

DUDE, ARE YOU KIDDING ME? - Man Overboard

Tabbed by: Mean Mr Mustard
Email: Gotchristo@comcast.net

Tuning: Half Step Down

CHORDS:

G 3-5-5-4-3-3
Em 0-2-2-0-0-0
Am 5-7-7-5-5-5
Bm x-2-4-4-3-2
C x-3-5-5-5-3
G/F# 2-5-4-2-3-2

So I m probably about 99% sure of this one s accuracy, since it s a pretty easy song.

Just make sure that if you re playing along with the track, it s tuned a half-step down.

This is my favorite Man Overboard song, and one of my favorite songs of all time. Sounds great on acoustic, and would be amazing with two vocalists (for that extra chorus part)

INTRO: (Listen for rhythm, but there s 3 beats of Am, and 1 beat of Bm)

G | **Em** | **Am** **Bm** | **C**

VERSE:

Em **Bm**
Where do I start? How do I begin to
C **G** **G/F#**
describe the way I mistake every shadow
Em **Bm**
For you being here. And if I get it
C **G** **G/F#**
wrong one more time Ill swan dive off the overpass.

CHORUS:

C **D**
I pretend that you re in my car.
G **Em**
Tracing my thoughts and making me whole,

C **D**
But the never ending solo nights fade into let down days
G **Em**
And Im back home without you.
C
Youll never understand.

VERSE:

Em **Bm**
Your skin looks so smooth but I wouldnt know,
C **G** **G/F#**
Because the lock on your door is keyless.
Em **Bm**
Cold air has made me numb, And this town seems
C **G** **G/F#**
so deceased without you. So Ill write more songs about you.

CHORUS:

C **D**
I pretend that you re in my car.
G **Em**
Tracing my thoughts and making me whole,
C **D**
But the never ending solo nights fade into let down days
G **Em**
And I m back home without you.
C
Youll never understand.

BRIDGE:

Em **Bm** **C**
At night I dream of how it could have went
Em **Bm** **C**
At night I blame myself for how its been.

CHORUS:

C **D**
I pretend that youre in my car.
G **Em**
Tracing my thoughts and making me whole,
C **D**
But the never ending solo nights fade into let down days
G **Em** **C**
And Im back home without you. without you.
Cm **G**
Youll never understand.
