Hide It So Deep

Intro: **E E7 A**

**A** **E**  
If I fell in love with you again  
**E7** **A**  
Would you simply want it said you once knew me  
**E**  
Could you care enough to follow and see  
**E7** **A**  
Just what is it lies between us why we hide it so deep

I was told by a friend that you miss me  
And you try very hard to forget me  
And you live your busy life there s no room for me  
cause the thing you re sure I d take is your will to be free

Instrumental (Fiddle + Pedal Steel Guitar)

Can you wrestle with the chains of your burden  
And you re sure when it s gone you can be certain  
You can live as you please give what you sell  
And you carry that weight so nobody can tell
