The Treasure

Intro. **Am G D C**

Am **D** **C** **Am**
Alone with my guitar living on a mountain far away

G **D** **C** **Am**
I saw a girl gypsy woman deepest in the world

D **C**
When she moved it was a dance
Am **G** **D** **C**
we hid ourselves and I had no chance

Chorus:

Am **F**
For the treasure of the oneness

C **G**
That like sand becomes a diamond

Am G D C
Before the wind

And while I changed my strings a rocky mountain woman came to town to sing
Took my heart and ran when she bade me follow
I just took her hand I began my journey to the east
A country boy searching for my peace

Chorus

Instrumental: **G D C Am** (3X)

I sit in deep reflection There are no answers to my question
Where did they go And which one took my heart which one took my soul
I may never see it clearly another woman
Now she just comes to me with the Devil s key

Chorus
