Leave My Fire
Mando Diao

```
G#          C#      Eb        G#
leave my fire, my fire alone
C#        Eb            G#
leave my fire in the morning
C#        Eb            G#
leave my fire in the evening

G#         C#         Eb          G#
read my lips, the words they say
C#        Eb            G#
read my lips in the morning
C#        Eb            G#
read my lips in the evening

C#7                                    G#
take whatever you need from here and need me
C#7                                  Eb
I just wanna feel the lone for a while

G#         C#      Eb         G#
deja mi fuego, mi fuego solo
C#        Eb           G#
dejalo en la madrugada
C#        Eb            G#
deja mi fuego en la noche

G#          C#            Eb         G#
lee de mi labios lo que quiero decir
C#        Eb            G#
lee mis labios mas que nada
C#        Eb            G#
lee mis labios en la noche

C#7                                    G#
take whatever you need from here and need me
C#7                                  Eb
I just wanna feel the lone for a while

G#          C#      Eb        G#
leave my fire, my fire alone
C#        Eb            G#
leave my fire in the morning
C#        Eb            G#
leave my fire in the evening

G#          C#           Eb            G#
```

read my lips, the words they say
C#   **Eb**   **G#**
read my lips in the morning
C#   **Eb**   **G#**
read my lips in the evening
