

The Shining
Mando Diao

Hej, I simply love this song but see that not too many people share my opinion that it s the new album s best song, so probably there wont be any tabs too soon. Anyway, let s do this!

For Intro and Verse repeat these chords:

Am - F - C - E

The trumpet intro goes somewhat like this:

```

e |-----0-3-4---5-7-8-(5)-----|
B |-----0-1---3-----|
G |-----1-2-----|
D |-----2-3-----|
A |0---2-3-----|
E |-----|

```

On the high five (ha) the dubbed second trumpet joins in with a repeat.

See my both hands tied
beneath our freezing sky
guess my fortune s out
silent dream silent shout

clock tick slower now
Armageddon creeping on
I m waiting for the dawn to come and
free my soul

```

          C              E              F
But it s you, I see my love come shining through
                Gm              C
but it s so hard trying to get close to you
          E              F
I see my only love tied in a tear
          Gm              B
and it s so hard to get close to you

```

-----INTRO-----

Rain of needles and pain
thunder of howling train
scream my name, rise again
shine again, get on track again

and I like the fact that Im getting old
and I don t know what to do
when all I need is
you close to my heart

But It s you, I see my love come shining
through
but it s so hard trying to get close to you
I see my only love tied in a tear
and it s so hard to get close to you

-----Solo-----

When you re lonely I ll be there for you
If you only would let me through
When you re lost I ll guide you re way
If only you could hear my prayer

When you re lonely I ll be there for you
If only you would lead me through
When you re lost I ll guide your way
If only you could hear my prayer
I m the rain when your well has dried
If only you could me mine

END on am.

Hope I got something right. Correct me!
