Save A Life
Manic Drive

Verse 1:
```
          Gm              F                           Bb
Oh picture it a little girl just a beautiful eight year old

Trying to live through this life in a crazy world
Gm               F
Years past and one bad move
            Bb
She finds herself as a teen and her life in ruins
Gm                              F
What could have happened if we stopped and took the time
Bb
Showed that girl she had meaning and a purpose to life
G                   F
Maybe avoid that downward slide
            Bb
Would you tell her the truth?

Or let her live in a lie?
```

Pre-Chorus:
```
     Gm                   F
It all just seems to change
         D#                   F
When you see it as a life to save
```

Chorus:
```
                 Gm           F
So would you save a life, save a life?
D#           Bb
  If it was do or die
             Gm           F
Would you save a soul, save a soul?
D#             Bb
 Even if its not your own?
Gm                 F              D#           Bb
  If you re the hands and the arms that reach
             Gm                 F
Would you save a life from drowning?
```

Verse 2:
```
Would you cry out if it was the moment of truth?
Would you reach out if there was something to lose?
Life or death would you take a deep breath
And dive in a save a life that needs to be rescued?
We d prevent it if we just explained
About the tides and the undertows and deadly waves
```

We could save a life before it needs to be saved
Why wait for tomorrow we can start today

Pre-Chorus:
It all just seems to change
When you see it as a life to save

Chorus:
So would you save a life, save a life?
If it was do or die
Would you save a soul, save a soul?
Even if it s not your own
If you re the hands and the arms that reach
Would you save a life from drowning?
