

**Dont Be Evil**

**Manic Street Preachers**

i play all the chords barred.

first of all, its my first tab, i dunno how the hell you lay it out, but ill give it my shot.

so i went to see the manics last week and decided to learn the songs off the new album

by the way is brilliant, so im sure this is accurate.

ive separated the verses from the choruses because i know how annoying it is when its

jumbled up. cheers to the manics!
