

to be turning slow

**G**                    **D**                    **Em**

I can hear the engine in myself

**C**

that would blow

**G D Em C**                                    **G D Em C**

off... my heart and soul

**G**                    **D**

I need sunlight

**Em**

I need water

**C**

I need air

**G**                    **D**

Parts of the gift that

**Em**                    **C**

we received and we should share

**G D Em C**                                    **G D Em C**

with... to all of them

[repeat chorus]

Bridge:

**G**                    **D**                    **Em**                    **C**

As long as God is within yourself

**G**                    **D**                    **Em**                    **C**

the rest will be done and your faith sticks to one

**G**                    **D**                    **Em**                    **C**

What matters most is that you cross on the line

**G**                    **D**                    **Em C-**

and you shall receive...

Coda:

**G D Em C**

the greatest divine (repeat until fade)
