Does he know? My life is still my own

There s no connection to my past

And if it s hurting me, it s teaching me

You took your pill today, for sure

You re desperate for your friends to like you more

When Kennedy spoke you d hear America sigh

The solace in their goodness above

We scream and we fight, it s all we have

Repeat after me we re drifting, repeat after me we re drifting

Does he know? My life is still my own

Repeat after me we re drifting, repeat after me we re drifting

Does he know? My life is still my own

G Bm C D

If I were a girl and you were born as a boy Although I m still here, someone is turning me back, yeah Failure s beautiful to me Repeat after me we re drifting, repeat after me we re drifting Does he know? My life is still my own
Repeat after me we re drifting, repeat after me we re drifting
Does he know? My life is still my own
