

Love Song

Maoli

Band: Maoli

Song: Love Song

Album: Rock Easy

Year: 2010

Chords: **F**, **Gm**

Chorus:

Baby can I write you a love song
Then I can sing it to you all night long
Baby can I write you a love song
I know your gonna love it baby
So let me play you a love song

Verse 1:

I could sing about the smile you wear
I could sing about the way you care for me
I could sing about the way I feel
Girl what we have baby, you know is real
No one knows how much you mean to me
With out you here I d be in misery

(Chorus)

Verse 2:

I could sing about you and I
And how we always had the best of times
I could sing about just being together
And how we always love each other forever
It s another night of satisfaction
Cause when I m with you I know you are the only one

(Sorry but I could figure out the chords for this drop, please comment for any suggestions)

Know I really care for you
And I want you to know
It s not to be a waist of time
If you re not here right by my side

(Chorus)
