

Where You Are
Marc Broussard

Where You Are

Great song. The Verse and Chorus Chords are pretty easy to figure out the rhythm on. Not 100% positive on the Bridge but it sounds OK.

E C#m A B

Your skin is like the moonlight, Dancing in the midnight
Your touch is sweet as candy, Your kisses they taste so fine, so fine
And I want to love you better, You don't have to be alone
I want to let you know forever's waiting right here at home

[Chorus]

E C#m A B

And I want to be where you are, Come on take all I've got
I want you to know just how I feel, I've loved you from the start,

I want to be where you are

Verse 2

E C#m A B

Girl you know how to move me, Making me believe, believe
You blind a man with beauty, Love will make him see I can see
And I want to love you better, And nowhere is too far
I want to let you know forever is right here in my heart

[Chorus]

Bridge

E C#m A B

I've stood alone in New York City

E C#m A B

I've watched the sunset in L.A.

E C#m A B

I ride for miles and miles and end up getting nowhere

D# E A B

But I've never felt this way

D# E A B

Never felt this way

D# E A B

Never felt this way

[Chorus]
