

Where You Are

Where You Are

Great song. The Verse and Chorus Chords are pretty easy to figure out the rhythm on. Not 100% positive on the Bridge but it sounds OK.

F# Ebm B C#

Your skin is like the moonlight, Dancing in the midnight
Your touch is sweet as candy, Your kisses they taste so fine, so fine
And I want to love you better, You don t have to be alone
I want to let you know forever s waiting right here at home

[Chorus]

F# Ebm B C#

And I want to be where you are, Come on take all I ve got
I want you to know just how I feel, I ve loved you from the start,

I want to be where you are

Verse 2

F# Ebm B C#

Girl you know how to move me, Making me believe, believe
You blind a man with beauty, Love will make him see I can see
And I want to love you better, And nowhere is too far
I want to let you know forever is right here in my heart

[Chorus]

Bridge

I ve stood alone in New York City

F# Ebm B C#

I ve watched the sunset in L.A.

But I ve never felt this way

F F# B C#

Never felt this way

Never felt this way
