I Was Broken
Marcus Foster

Capo 5

Intro: **G**

G   **C**
I was tied, but now unbound
                       G
My head is off the ground
G   **C**
For a long time I was so weary
             G
Tired of the sound, I ve heard before,
G   **Em**
The gnawing of the night time at the door,
                          D
Haunted by the things I ve made
                   Em   **D**
Stuck between the burning light and the dusty shade.
      G   **C**
I said now I used to think the past was dead and gone,
        G
But I was wrong, so wrong,
G   **C**   **G**
Whatever makes you blind must make you strong, make you strong,
                              Em
In my time I ve melted into many forms
                       D
From the day that I was born,
                          Em
I know that there s no place to hide
                      D
Stuck between the burning shade and the fading light,

G   **Em**   **G**   **C**
I was broken, for a long time, but It s over now. Its over now.
         G
Yes and you, and you,
G   **C**   **G**
Well you walk these lonely streets that people send, People send.

G   **C**   **G**
There are some wounds that just can t mend, I do pretend, pretend,
G   **Em**
I am free from all the things that take my friends
                          D
But I will stand here till the end.
                          Em

```
I know that I can take the moon,
                          D
In between the burning shade and the fading light

G                                    Em          G
I was broken, for a long time, but It s over now
G                                      Em          G
Said I was broken, for a long time, but It s over now

(Last time, strum chords once only:)

G                                      Em          G
Said I was broken, for a long time, but It s over now
```
