

Watch This City Burn
Marcus Foster

Hi there! This song is soooo good! But tough to tab!
Once again, Marcus has his strum/hammer/pick/hammer/
strum/pick each chord thing going on, so tabbing is
a bit challenging ;) I think it sounds good though!
Thanks Lydia for your input :)
Here s the video it was directly tabbed to-(It may
not play with other versions)

*****Important Notes*****

EADGBe

C [x32010]

C1 [33201x] - So, 332010 is still a C chord, I didn t want to * it
because in all my tabs that means single strum, so I
just named it C1!

Am [00221x]

Gsus4[32001x] -I ve always called this a C/G but it s not;)

Am/F[xx3213] -Marcus always uses his pinky, but xx3210 works too

** The C and Am/F chords you strum the higher strings
and the C1, Am and Gsus4, you strum the lower strings, as
represented with the x s in the chart.**
