

Arrow Through The Sky
Marcy Playground

Just an obscure, unreleased (but very very catchy) song by Marcy Playground. You can hear this song on marcyplayground.com. They always play it live, too.

G F C G F C
Ooooooh Ooooooh
F C
You and I
G F C
We re riding arrows through the sky
F C G F C
Satin lights above the boulevard tonite
And if we
F C
lose our way in love we can stop to discuss...or fly to venus
F C
In a universe of mystery the marvel is us
And all between us
F C
And high above the city
F C
Sure are looking pretty
F C G
Perched upon the arrow and haulin ass
F C
And all around we see
F C
The possibilities
F C G
And laugh about the sparrow we just passed
