Verse 2;

Red is pumping something by the gallons through the all of me

And I ll be damned if I ll have something pumping through the all of me

Green is not my color but the composition of my blood

I never trust a botanist. They dig in dirt. They play in mud.

Chorus:

Is this what it feels like?

Is this what it feels like?

Is this what it feels like to be a plant?

Is this what it feels like?

Is this what it feels like?

Is this what it feels like to be a plant?
