

Cartoons And Forever Plans
Maria Taylor

Capo 6

D G A

D G A
Did you know the first time you were in my sight

D G A
And did you know that look that I threw at you

Bm G A D G A
And did you know my love will never die

D G A
And did you know I can't do this without laughing

D G A
And did you know no matter where it takes us now

Bm G A D G A
And did you know our love will never die

G D
The pretend season that we fill

G D
With cartoons and forever plans

Em A
I've seen it in your eyes

Em A
I will be satisfied

And did you know electricity favors us
And did you know I'm not reading into anything

Bm G A D G A Bm G
And did you know our love will never die

G D
I will run away, I will run away, I will run

G D
I will run away, I will run away, I will run

Em A
Our love will never die

Em A
I will be satisfied

And did you know my glass is never empty
And did you know I'm not as fragile as I thought
And did you know my love will never die
