Emotions

Mariah Carey

So this is my first tab, and YES i know that it s slightly different than the recording.

I skipped a part of it! I KNOW! there were just no tabs/chords of this song before and

I love this song, so i made it!!

PS: Ultimate Guitar messed with the chord placement, they are in the correct order, but

they may not lie over the correct word!!

not 100% but it works!
