

**Cake and Sodomy**

**Marilyn Manson**

I realize that someone already has submitted part of Cake and Sodomy by Marilyn Manson but I don t think that it was really very much. It seems to me that so far you have the solo and the bass. That s hardly any of it. I m sending this so anyone looking for that particular song can get more from their visit here. Don t be surprised if you get any corrections or additions to Marilyn Manson songs. Anyway, here s what I came up with while listening to Cake and Sodomy:
