

## Putting Holes In Happiness

Marilyn Manson

I based this on another version from here, but hopefully this is more helpful.  
PS: this is a simplified version without the solos etc.

xx

Verse 1:

**Em** C  
The sky was blonde like her, it was a day  
D  
To take the child out back and shoot it  
**Em**  
I could ve buried all my dead  
C D  
Up in her cemetery head  
**Em**  
She had dirty word witchcraft  
C D  
I was at the deep end of your skin  
Em  
And it seemed like one car wreck  
C D  
But I knew it was a horrid tragedy  
C D  
Ways to make the tiny satisfaction disappear...

Chorus:

**Em**  
Blow out the candles  
C D  
On all my Frankensteins  
**Em** C  
At least my death wish will come true  
D  
You taste like Valentine s, and we cry  
Em  
You re like a birthday  
C  
I should ve picked the photograph  
D  
It lasted longer than you...

Verse 2:

**Em**  
Putting holes in happiness  
C  
We ll paint the future black  
D  
If it needs a colour

Em C  
My death sentence is a story  
D  
Who ll be digging when you finally let me die?  
Em C  
The romance of our assassination  
D  
If you re Bonnie I ll be your Clyde  
Em  
And the grass is greener here  
C D  
I can see all of your snakes  
C D  
You wear your ruins well, please run away with me to Hell...  
Repeat the chorus, and you re done! Simple. :D
