

**The Minute**  
**Marion Raven**

Verso:

**D**                    **E/D**                    **A/C#**  
Oh there you were and I was not prepared  
**Bm**                  **E/G#**                  **A**  
I wish it was a better time  
**G**                    **A/G**                    **D/F#**                  **G**  
Oh there you were with your forbidden stare  
**D/A**                                    **A**  
and you could not be mine  
**D**                    **E/D**                    **A/C#**  
When our eyes meet, the more I want you near  
**Bm**                  **E/G#**                  **A**  
The more I know I will resign  
**G**                  **A/G**                    **D/F#**                  **G**  
I never looked, but now I found you here  
**D/A**                                    **A**  
my feet and hands you bind

Refrão:

**G**                                    **A**    **Bm**  
And in the minute you let go  
    **A/C# D**  
well, that's the minute you will know  
    **G/D**                    **A**  
and you'll find you're nothing like before  
**Bm**    **D**    **G**  
You rather die, then let it go  
    **A**    **D**  
You rather die, then let it go  
    **G/D**                    **A**  
You rather die, you'll never let it go  
          **D/B**                  **A/D**          **D/F#**          **A/C# D**  
and you will never be the same again

Verso:

**D**                    **E/D**                    **A/C#**  
So here we are and there's no turning back  
**Bm**                  **E/G#**                  **A**  
I wouldn't do it if I could  
**G**                    **A/G**                    **D/F#**                  **G**  
So here we are remind me why it's wrong  
**D/A**                                    **D**  
Because it feels so good  
**D**                    **E/D**                    **A/C#**

When our eyes meet, the more I feel alive

**Bm**                    **E/G#**                    **A**

the more I know I wanna be

**G**                    **A/G**                    **D/F#**                    **G**

The only one who wakes up by your side

**D/A**                    **Bm**

the only one you see

Refrão:

**G**                    **A**                    **Bm**

And in the minute you let go

**A/C# D**

well, that's the minute you will know

**G/D**                    **A**

and you'll find you're nothing like before

**Bm**                    **D**                    **G**

You rather die, then let it go

**A**                    **D**

You rather die, then let it go

**G/D**                    **A**

You rather die, you'll never let it go

and you will never be the same again?.

(Refrão)
