

We Can Tell The Truth

Mark Foster

F#m A D

The people who are born into people
I'm never short of food on the table
Shaking hands with fake tans and southern dreams
Douse the world in kerosene

Bm G D

We can tell the truth
Yeah we can tell the truth
Yeah we can tell the truth
Someone s gonna lose
Someone s gonna lose
Yeah someone s got to lose
Oh yeah

F#m A D

They manipulate our religions
To set us on a unified vision
Fill our mouths with words so we listen
In a comfortable state of submission

Bm G D

So we can tell the truth
So we can tell the truth
So we can tell the truth
They keep a shadow over you
A shadow over you
A shadow over you
They ll never show you proof
They ll never show you proof

G Bm A E

They ll never show you people can change
And we're all the same,
Money wont cover up their mistakes, yeah

D A E (x3)

F#m A D

Everybody loves a winner
Nobody wants to lose
So place your bets and think like the rest
So you can be a winner too
So you can be a winner too

Bm G D

We can t ignore truth

We can t ignore truth
We can t ignore truth
Someone s gonna lose
Someone s gonna lose
And it could be you
