**Mark Lanegan**

TITLE Hotel

ALBUM Â· Scraps at Midnight (1998)

It s my favourite song of Mark Lanegan. Â´This song is quite easy to play when you listen to it.

Verse:

**Em**

From the dive down to the wet

**C**

**Am**

Usually I fall, tell myself

**G**

It doesnâ€™t matter anyway

**Am**

**Em**

That this is just another day

**Em**

I donâ€™t speak the truth too much

**C**

**Am**

Hear the roars and the hush

**G**

And the cold chill of time

**Am**

**Em**

And Iâ€™m happy murderinâ€™ my mind

Chorus:

**C**

Oh I remember your voice

**Am**

**G**

**Am**

Turninâ€™ around and around and around in my head

**Em**

Now itâ€™s just like you said

**Am**

**Em**

Everything inside is dead

Verse:

**Em**

From the pillar to the post

**C**

**Am**

I kill what I can miss the most

**G**

Of the blame when you get in touch

**Am**                    **Em**  
Another town another torch

**Em**  
Thought I saw you in a dream

**C**                    **Am**  
Fill the hours in between

**G**  
When I call myself alone

**Am**                    **Em**  
Then I disappear below

Chorus:

**C**  
I remember your face

**Am**                    **G**                    **Am**  
But it's been a long and long been a long long day

**Em**                    **Am**  
What I did along the way

**Em**                    **Am**  
Well I wouldn't care to say

Well that was my first tab and i hope it s quite right!!! If not please send me a mail
