

Clementine
Mark Owen

G# A#m F# D#m
She heard a voice from so far away It told her her mother had gone away
G# A#m F# D#m
In the next room down the corridor Her baby started to cry
G# A#m F# D#m
Her whole life had just fell apart There was nothing then the hurting started
G# A#m F# D#m
In her heavy head on her knees she prayed could somebody help her

G# A#m F# G# A#m F#
Clementine It was never meant to be this way It was never meant to be this way
G# A#m F# G# A#m F#
Clementine It was never meant to be this way it was never meant to be this way
A#m F#
If only I d told you yesterday

G# A#m F# D#m
Got in her car and she sped away Into the floodlit street down by your way
G# A#m F# D#m
As the sun rose by the morning dew Well she returned in such a state
G# A#m F# D#m
Her baby knew not what was going on But it could tell from her tears that
G# A#m F# D#m
something was wrong with mum Desperation let out its final scream

But our clementine didn t hear a damn thing

G# A#m F# G# A#m F#
Clementine It was never meant to be this way It was never meant to be this way
G# A#m F# G# A#m F#
Clementine It was never meant to be this way it was never meant to be this way
A#m F#
If only I d told you yesterday

Into the mirror she stared at herself Asked is that my life is that what I m
here for

Her reflection chose not to respond As she froze to the spot like a cold hard
statue

And bathed in her tears she said her time was through
