

Makin' Out
Mark Owen

F#

I ll be the one who brings you coffee when you can t get up

F#

I ll be the one who turns the light out when you go to sleep

B

I ll be the one who turns your stomach into something else and you say
Shut up, shut up, every time I say

F#

I ll be the one who takes your coat off, one to take the blame

F#

I ll be the one you call your lover, every now and then

B

You ll be the one who keeps me sober, one to keep me sane and you say
Shut up, shut up, every time I say it

C#

And I d cut my fingers to the bone,

B

And I d split my sides in for you

F#

C#

Tonight, we throw ourselves away

D#m

And we make it every time

B

When I thought I was ok

F#

You said I was alright

C#

As the night comes crashing down

D#m

We catch ourselves a line

B

Yeah we re only makin out

F#

If we make it out alright

F#

I ll be the one who stands beside you in the photograph

F#

I ll be the one that s in your water when you want me there

B

I ll be the one you re falling over every time you laugh and you say
Shut up, shut up, every time I say

F#

I ll be the one who keeps you guessing, who swears a lot

F#

I ll be the one that let your colour in the white wash

B

You ll be the one that knocks the man out I was beating up and you say
Shut up, shut up, every time I say it

C#

And you cut my face, I told you so

B

I d tear my eyes out for you

F#

C#

Tonight, we throw ourselves away

D#m

And we make it every time

B

When I thought I was ok

F#

You said I was alright

C#

As the night comes crashing down

D#m

We catch ourselves a line
