I m happy you came to me first
 Before the bubble burst
 I m happy you answered my calls
 I m bouncing off the walls
 Impossible to be tamed
 Her need- celophane
 I m happy you like to play games
 Why did you run away?

We could spend some time together
 What he had he ll never know
 Your boyfriend gives you no respect
 And i can see your getting it
 So lets figure it out let s go.

I m happy you re so impulsive
 Means that your passionate
 Im happy you re moving so fast
 But will it ever last
 I know you wanna break free
 From this monotony
 I m happy you re coming with me
 But by choice its gotta be

We can spend some time together

What he has he ll never know
Your boyfriend gives you no respect
And i can see your getting it

So figure it out lets go

I m happy you re changing your speed
Slow down and lay with me
On bottom but always discrete
Kneel down and kiss her feet
I m happy your going too far
Full strength before we start
Sometimes you make it so hard
Scream loud as we come apart

We can spend some time together
What he had he ll never know
Your boyfriend gives you no respect
And i can see your getting it
So figure it out lets go

We can spend some time together
What he has he ll never know
Your boyfriend gives you no respect
And i can see your getting it
So figure it out lets go
Figure it out lets go
Figure it out lets go
Figure it out lets
Go
