

**You Shouldve Been There**  
**Marshall Crenshaw**

Capo 1

**Am** **C**  
You should ve been there as the sun went down  
**G** **F** **E**  
Colors ran all across the ground  
**Am** **C**  
And a thousand stars were spinning all around  
**G** **F**  
Do you care? You should ve been there

**Am** **C**  
I saved you place right by my side  
**G** **F** **E**  
And waited there in the candlelight  
**Am** **C**  
But the only friend I had in sight  
**G** **F**  
Was an empty chair, you should ve been there

**C** **F**  
Ran into some people we used to know  
**C** **G**  
They were going somewhere I didn t want to go  
**F** **G** **Am**  
So I kept on waiting for just a little bit more  
**G** **F** **G** **Am**  
Not getting anywhere, you should ve been there

**C** **F**  
Then I thought I saw you walking by into town  
**C** **G**  
Into the crowd I went chasing you down  
**F** **G** **Am**  
When I grabbed your arm she spun around  
**G** **F** **G** **Am**  
A stranger glared, you should ve been there

**Am**  
Yeah, you should ve been there

**Am** **C**  
You should ve been there, there s always so much to see  
**G** **F** **E**  
In this old town, don t you agree?  
**Am** **C**  
But then again, I never said I d be

**G** **F**  
Anywhere, you should ve been there

**Am** **C**  
I saved you place right by my side

**G** **F** **G** **Am**  
Anywhere, you should ve been there
