To my hometown  
                                  **G**  
I ve been to yours many times before  
                                  **D**      **C**  
And it s always been a thrill

[Verse]

**G**      **C**  
We ll stay in our hotel  
                  **G**      **C**  
Or at friends nearby  
                                  **G**  
We haven t spent the night together in this town  
                                  **D**      **G**  
Since Nineteen seventy-nine  
                  **D**      **C**  
Not such a long time

[Chorus]

**G**      **C**  
I can steal a melody of  
                  **G**      **C**  
This, I am allowed  
                                  **Am**  
Cause you would never sue me, baby  
                  **Bm**                  **C**      **D**      **C**  
It wouldn t look good, it d be weird

[Verse]

**G**      **C**  
Have a drink after the show  
                  **G**      **C**  
I might really want to know  
                  **G**  
But everything you say I oppose  
                  **D**      **G**  
I blame it on my whole  
                  **D**      **C**  
It s just my role

[Chorus]

I can steal a melody of  
This, I am allowed

Cause you would never sue me, baby  
It wouldn't look good, it'd be weird

[Bridge]

And I spend my time trying to forget you  
With booze and smoke from cigarettes and dope  
And I, I only seem to forget myself  
It's only you that is left\_\_\_

[Chorus]

I can steal a melody of  
This, I am allowed  
Cause you would never sue me, baby

[Chorus]

I can steal a melody of  
This, I am allowed  
Cause you would never sue me, baby  
It wouldn't look good, it'd be weird  
It'd be weird  
It'd be weird

[Outro]

You're comin' tonight  
To my hometown
