

**In The Middle Of The Night**  
**Martha Wainwright**

My most favorite Martha song. i saw a video of her playing it on youtube and pretty sure is how she did. if not its close enough for me. the bridge i have tabbed is from the session she did not the song that is on the album. the only difference is she repeats the chords look crazy but they re pretty simple. For the verses it is pretty much an played across the fifth, fourth and second fret. anyways, enjoy and let me know of any you may have.
