Main Theme:

(Note: These are the right notes but probably the wrong positions.
This is the easiest way I can think of to play it.)

b = bend (the number in parentheses is the number of steps)

r = release bend

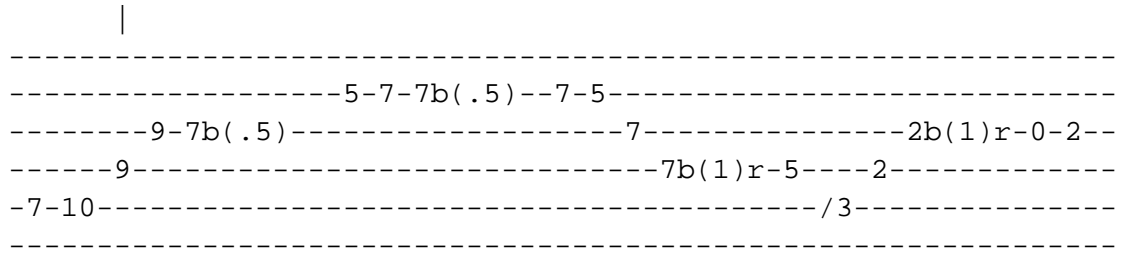

pb = pre-bend (the number in parenthesis is the number of steps)

/ = slide up

^ = legato (hammer-on or pull-off)

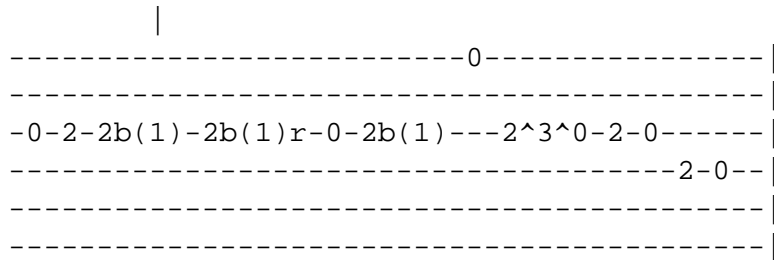

Repeat this twice (with different endings):

/-- slide up to this note on the second repeat

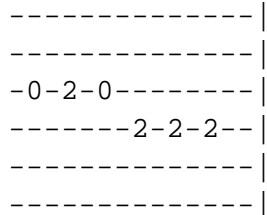

1st ending:

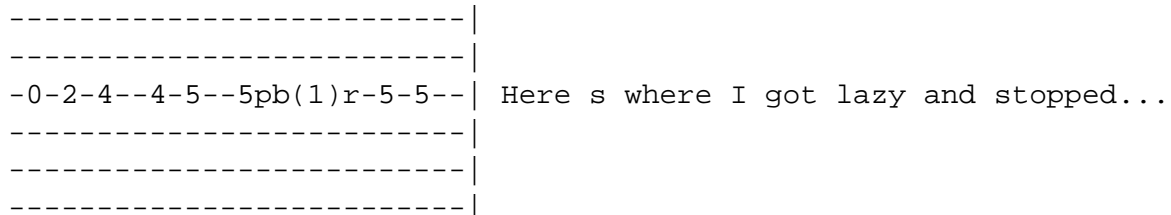

/-- not quite a full bend

2nd ending:

After all that:

...it s not much, but it s all I ve figured out so far. If anybody has them to me.
