

Another Day
Mary Black

[Intro]

F G Am Em F G D
F G Am Em F G Am

[Verse]

Hey little brother, the winds of the world
Have ruffled your soft and weakened wings
And though I can't hold you as I look into your eyes
I can see the film that disappointment brings

[Verse]

I know it's rained upon your childhood dreams
The games you've been playing weren't quite what they seemed
How can I tell you, don't bang your head against the wall
The wall I've been banging and praying might fall?

[Chorus]

Your time will come on another day
And your dreams will flame and in the fire play
On another day

[Verse]

I know it's hard for you to understand
There are no flying angels come to lend a hand
No smiling faces lined for you to meet
It looks like that in twisted glass from the kind side of the street

[Chorus]

Your time will come on another day
And your dreams will flame and in the fire play
