

**Real You**  
**Mary Black**

[Intro]

C G Dm7 C G Dm7 F

[Verse]

          Em7                          F  
Your hands are cold, lover  
                          C    F  
Where have you been?  
                          C          Dm7  
We don t need persuasion  
                          G    F  
You just need a sin  
  C                  G  
We can differ through the hours of the night  
                          Em  
That s no big thing  
  
Ah, but give me one embrace  
          Dm7                          G    C  
And I ll stop all my talking

[Chorus]

          Dm7                          C  
The real you is there to see  
                          Dm7                  C  
The real you is the one for me  
          Dm7                          C  
All through this rocky ride  
          Dm7                          C          Dm7  C  Dm7  F  
Let s do our bit in this full tide

[Verse]

          Em7    F  
Life gets so serious  
                          C    F  
There s no time to play  
                          C  
I don t want any blessing  
          Dm7                          G    F  
Cause I spy you headed my way  
  C  
I could carve your name down on a stone  
          G                          Em  
And say, that s no big thing  
  
Ah, but when I see your face  
          Dm7                          G

There s no need for talking

[Chorus]

The real you is there to see  
The real you is the one for me  
All through this rocky ride  
Let s do our bit in this full tide

[Bridge 1]

I was lost in a fog  
Living in a world I never knew about  
Now I m standing in a place

And heaven s all around  
The shadows have all washed out  
The shadows have all washed out

[Bridge 2]

Oh, what paradise is this?  
The words of welcome on your lips  
The stamp of certainty in all your steps  
You re here to save me from this slow death

[Chorus]

The real you is there to see  
The real you is the one for me  
All through this rocky ride  
Let s do our bit in this full

[Chorus]

The real you is there to see  
The real you has the best of me  
Gods loves even the poorest life

So, let s do our bit in this full tide

In this full tide
